

MORE FUNCTIONS, METICULOUSLY DESIGNED

Hifi-level surround sound
Bluetooth connection, built-in music library

Mobile phone placement hole
Convenient to take out and put in

Large-screen control
The massage status is displayed in real time

Dovetail decorative piece
It is elegant and generous, highlighting quality

Embedded USB interface
The mobile phone on the chair is out of power

Comfortable and wear-resistant leather
Skin-friendly, breathable, dirt-resistant

Product Size

Product Specifications

Model: C50 Pro
Rated Voltage: 120V
Rated Frequency: 60Hz
Rated Power : 150W
Carton Dimension: 1425x735x1485mm
Product color: Grey

Dual-core intelligent massage chair

Create a healthy and quality life

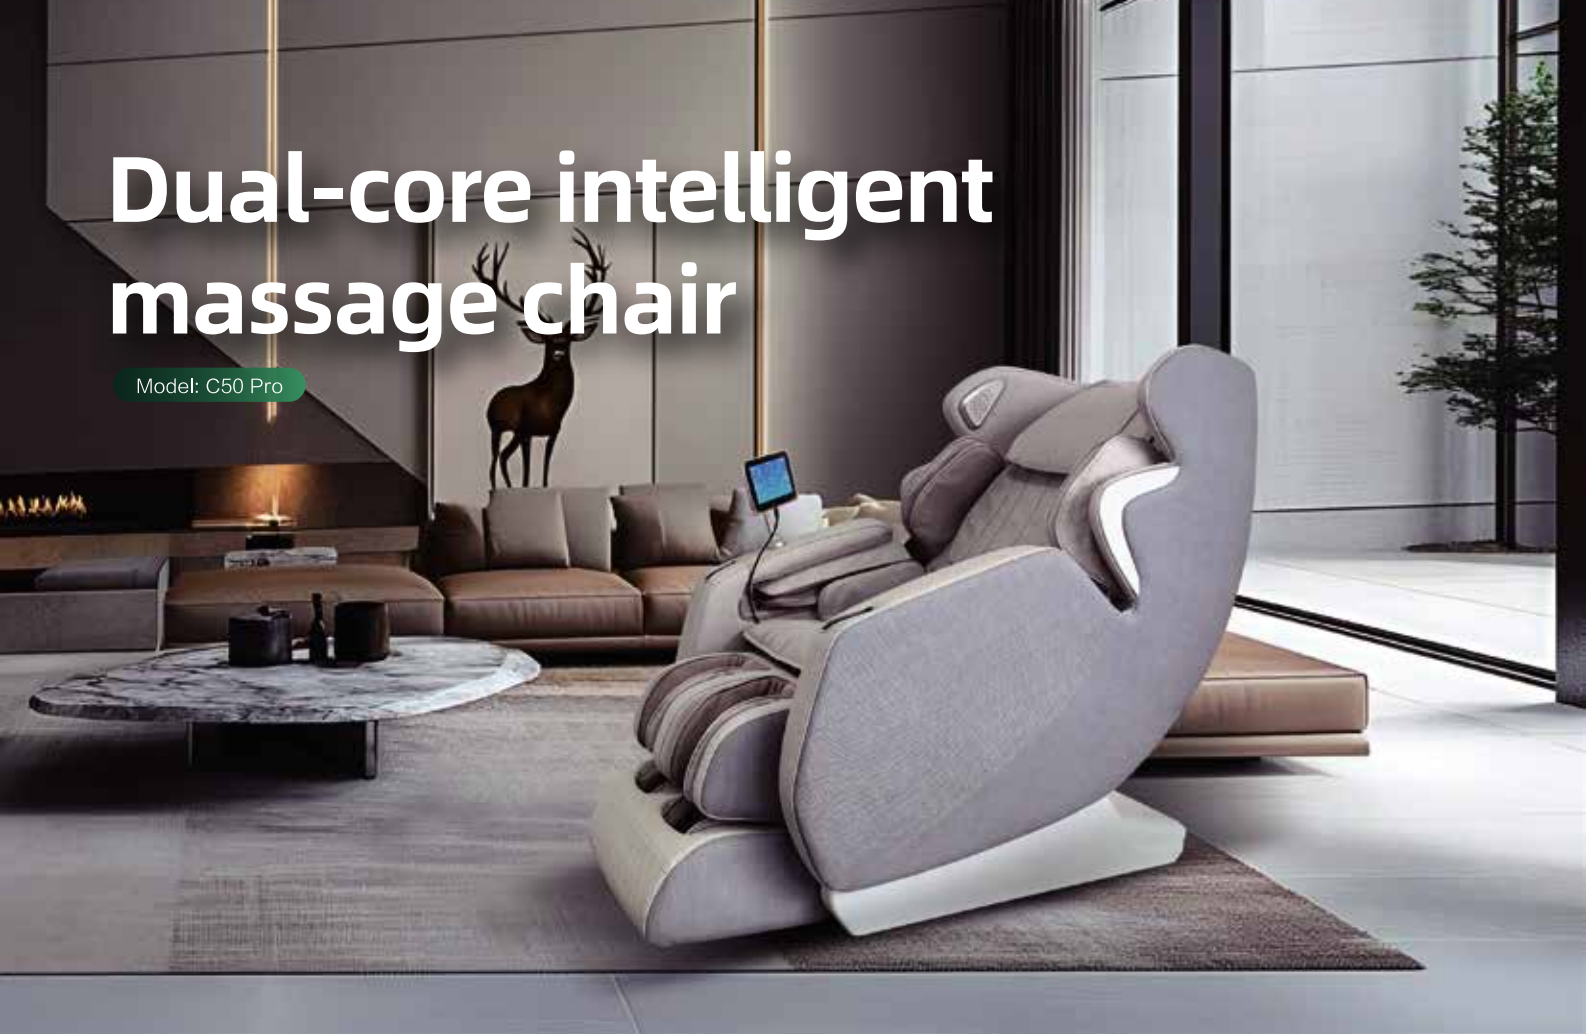

Model: **C50 Pro**
Dual-core intelligent massage chair

American Chanenn Massage Chair Technology Inc

Dual-core intelligent massage chair

Model: C50 Pro

SMART DETECTION FOR PERSONALIZED MASSAGE

Using dual optical sensors, the chair intelligently detects shoulder position and back curve to tailor the massage for users of different heights and body types.

Height Position Detection

Pressure shoulder positioning and full back pick point combination, positioning height massage.

Back Curve Detection

4D tactile detection, adapt to the human body curve changes, massage more accurate fit.

SIMULATE MASTER-LIKE MASSAGE TECHNIQUES

The intelligent massage mechanism, through AI algorithms, transforms various simulated human-person massages.

USE ENLARGED AND LENGTHENED AIRBAGS TO WRAP THE MASSAGE

The whole body (from the shoulders to the soles of the feet) is wrapped with multiple large airbags. Multiple air valve groups and high-pressure pumps can achieve rapid inflation/deflation. The strength of the airbags is adjustable in multiple levels, providing a comfortable and snug full-body relaxation massage.

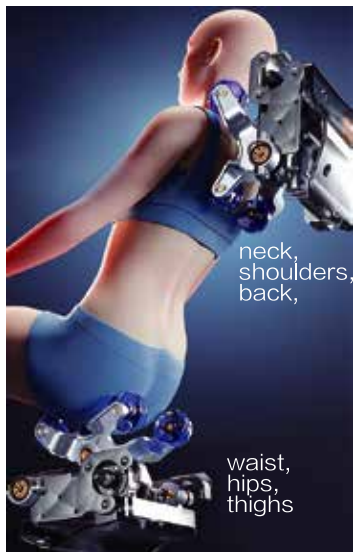

DUAL-CORE SYNERGY, FOUR-HAND MASSAGE

Dual-movement synchronous massage

Dual-core four-hand synchronous massage, like two professional masseurs massaging at the same time, doubles the stress relief and relaxation speed.

Dual-core reasonable division of labor

The division of labor between the upper and lower movements is more reasonable. The upper movement massages the shoulders and opens the back, while the lower movement massages the buttocks and protects the waist, providing more precise massage.

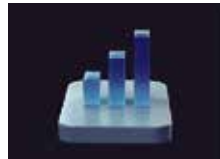

neck, shoulders, back,

waist, hips, thighs

Dynamic Detection System

Equipped with pressure, position, and speed sensors, it monitors body curves in real time and automatically adjusts massage strength and position for a smoother experience.

APPLY HEAT TO THE WAIST AND LEGS

Large – area constant – temperature heating ensures warmth without burns. Multi – layer protection auto – shuts off power if overheated. Delivers a cozier, more relaxing experience to help you sleep soundly.

Constant-temperature hot compress

Overheat protection

Apply heat to the waist and legs simultaneously

360° LEG AND FOOT MASSAGE WRAPPED AROUND

Mimics human – like kneading, gua sha, and acupoint pressing. Deeply stimulates plantar reflex zones and acupoints to boost blood circulation.

Foot rollers

Airbags

Hot compress

Leg stretching

THAI STRETCHING

First, tighten the airbags all over your body. Then, lower your backrest and calves. Finally, lift the movement upwards to stretch your muscles significantly.

ZERO – GRAVITY COMFORT

Simulates space – like zero gravity to relieve full – body pressure. Immerse in the relaxation of a fully suspended body experience.
