INTELLIGENT DUAL-CORE SYNCHRONOUS MASSAGE FOR DEEPER AND MORE THOROUGH STRESS RELIEF

UPPER MOVEMENT: 4D AIRBAG MOVEMENT

The movement is equipped with an independent air pump inside, which inflates quickly, provides strong force, and offers accurate massage. The air pressure can be dynamically adjusted in real time to ensure a smooth and powerful massage. The force is refreshing and not painful, simulating the ability of human hands to adjust the intensity and speed. It can be used by the whole family.

LOWER MOVEMENT: 3D SMART MOVEMENT

The movement is equipped with high-speed chip precision control technology, enabling various massage techniques such as kneading and tapping to penetrate the fascia layer and quickly relieve sore areas.

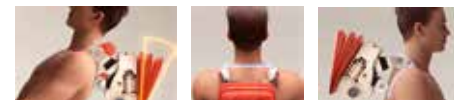

THE DUAL CORES WORK IN COORDINATION, PROVIDING BOTH EFFICIENT AND PRECISE MASSAGE

Based on the characteristics of human body parts, the upper 4D airbag mechanism is used for shoulder and back kneading, while the lower 3D mechanism is used for waist rubbing and buttocks tapping. The dual mechanisms of the back and waist are superstacked for massage, providing double care

DIY MANUAL SETTINGS

- 5 levels of massage insertion
- 5 levels of massage speed
- 5 levels of massage intensity
- 3 levels of massage amplitude

FULL-BODY MASSAGE FOR THE LEGS.

The large air sacs on the legs and feet alternately squeeze the stiff muscles of the legs and feet. The roller on the sole of the foot effectively stimulates the acupoints on the sole of the foot, deeply relieving fatigue and completely relaxing the sore and swollen legs and feet.

Foot rollers

Airbags

Hot compress

Leg stretching

FULL-BODY COMPRESSION AIRBAG LARGE-AREA MASSAGE

Covering key areas of the entire body, including the shoulders, arms, buttocks, legs and feet, multi-point coordinated massage, wavy pinching, circular squeezing, and deep relaxation of the limbs.

Intensity Adjustment

Air Pressure Massage For Five Parts

18 AUTOMATIC MASSAGE PROGRAMS AND FIVE MASSAGE TECHNIQUES.

A variety of life scene massage programs combined with multiple master-like massage techniques offer you a comfortable and pleasant massage experience.

AUTOMATIC INTELLIGENT BODY SHAPE DETECTION

The combination of full back sampling calculation and shoulder positioning automatically adapts to various body shapes, making the massage more fitting and accurate.

15CM ELECTRICALLY EXTENDABLE LOWER LEGS.

It not only meets the needs of people of different heights, but also automatically stretches the calf muscles and relaxes the whole body.

SL EXTENDED GUIDE RAIL, PRECISELY FITTING THE WAIST AND BACK.

From the neck to the groin, it precisely conforms to the curve of the human back, preventing the waist from being hollowed out and making the massage more powerful.

3 LEVELS OF ZERO GRAVITY, A FLOATING AND RELAXED FEELING.

Simulate the zero-gravity experience of a space capsule, like floating in the clouds, reduce the pressure on the spine and joints, achieve a better sense of support, and easily relieve the fatigue of the whole body.

APPLY HEAT TO THE WAIST AND LEGS, AND USE A FLEXIBLE SHAWL FOR HEATING.

Selected black technology materials, fast and safe heating, constant temperature heat compress, stretching tight muscles in the waist and legs. The flexible heating shawl can be used for hot compresses on multiple areas such as the shoulders, abdomen, and hands.
